

Gary Annett
Head of Labrador Operations
Vale

Born in Sudbury, Ontario, Gary grew up in a hardworking mining/farming family. Gary began his career with Vale working as an underground miner. After leaving to further his education, he returned to Vale and worked in mine operations, before being assigned to manage the Totten Mine Project. From there Gary managed various mining complexes in the Sudbury area until 2018, when he moved to Thompson to head up Vale's Manitoba Operations. In May of this year, Gary was appointed as the Head of Vale's Labrador Operations, where he will be responsible for the oversight of our Voisey's Bay Mine and Concentrator operation and will lead the Voisey's Bay team as they transition from open pit mining to underground.

Gary holds a Bachelor of Mining Engineering from Laurentian University.
